BLENDING PARTNER

BEE GREEN WITH BROCO OIL

Your connection to the biofuel supply chain is complete.

As an REG blending partner, Broco Oil offers bulk quantities of:

- Biodiesel Blends
- Blended Bioheat® Fuel*
 - ✓ B5
 - ✓ B10
 - ✓ B15
 - ✓ B20+

*Bioheat® is a registered trademark of the National Biodiesel Board, used with permission.
 ** New England Fuel Institute

Your customers and communities are increasingly calling for **low-carbon energy solutions.**

Biodiesel and Bioheat® fuel blends provide heating oil dealers and end users with the **shortest, easiest and most affordable road to a net-zero carbon future.** Additionally, all of Broco's B10+ blends qualify for the Massachusetts Alternative Energy Portfolio Standard, which offers **financial incentives for every gallon you deliver.**

Region-wide use of B20 Bioheat fuel can reduce CO₂ emissions by approximately 7.4 million metric tons. That's equal to **removing more than 1.5 million cars from the road.** Region-wide B50 use could reduce emissions by approximately 18.5 million metric tons, equal to taking **nearly 4 million cars off the road.****

Who We Are!

Broco Oil is owned and operated by the husband-and-wife duo of Bobby and Angela Brown.

Bobby Brown is a U.S. Navy Seabee veteran who was on active duty during the War on Terror. The Seabee logo inspired Broco Oil's branding, the Seabees' "Can Do" spirit continues to inspire their commitment to excellence in everything they do. Angela Brown holds a BSBA in business management and entrepreneurship, and has worked with hazardous materials and commercial equipment for virtually her entire life.

In 2019, Broco Oil and Renewable Energy Group (REG) announced an agreement to provide REG distilled biodiesel and blended Bioheat fuel from Broco Oil's transload terminal in Haverhill, MA. In addition to transloading, **the company provides bulk delivery service for the entire New England region.**
